

SHE'S BACK! IN A NEW EDITION OF AN AWARD-WINNING INVESTIGATIVE CLASSIC

MARILYN MONROE

DON'T EVEN DREAM ABOUT TOMORROW BY DARWIN PORTER

BLOOD MOON PRODUCTIONS ANNOUNCES THE IMMEDIATE RELEASE OF A NEW EDITION OF WHAT WAS WIDELY REVIEWED IN 2012 AS "THE BEST BOOK ABOUT MARILYN EVER PUBLISHED."

FAMOUSLY STRIPPING AWAY SECRECY FROM THE SCANDALS OF "HOLLYWOOD'S GOLDEN AGE."

BOOK NEWS for Immediate Release

Blood Moon proudly announces the immediate availability of a revised new edition of its widely reviewed, award-winning classic about the murder of Marilyn Monroe.

As stated by its publisher, Danforth Prince, "This is an improved version of the most successful and notorious book we ever published. Intensely controversial, it's the personal statement of a devoted and deeply respected Marilyn expert whom the media defined after its publication as "The Master of Guilty Pleasures, the Proust of Pop Culture, and the Goethe of Gossip," Darwin Porter."

"We were awakened to the fact that original, first-edition copies of this "hysterically controversial" classic were selling as collectors' oddities for three or four times their original retail price. And despite the passage of time (the suppression of evidence associated with her murder began almost 60 years ago), her associations with The Kennedys and the Mob are still hot and still shocking. Perhaps as a distraction from more recent scandals associated with Covid and election politics, we wanted new generations of classic movie fans to realize, perhaps for the first time, just how murky "the swamp" associated with her death really is."

WHERE TO GET IT, WHERE TO FIND IT: It's available NOW online through Amazon.com and other internet purveyors worldwide.

HERE'S WHAT CRITICS AND MEDIA REVIEWERS SAID ABOUT BLOOD MOON'S INVESTIGATION OF MARILYN MONROE'S MURDER

"With scrupulous research, Darwin Porter pretty much sums up the underside of American entertainment, political and criminal activities during the mid-twentieth-century. He does not paint a pretty sight, but Porter does present, with scathing honesty, the Monroe death's lies and cover-ups, stopping just short of JFK and RFK. And for those who still believe that lone gunmen were responsible for the deaths of the Kennedy Brothers, is that the sound of sleigh bells on the roof?"

"It's been said that he deals in muck because he can't libel the dead. Well, it's about time someone started telling the truth about the dead and being honest about just what happened to get us in the mess in which we're in. If libel is lying, then Porter is so completely innocent as to deserve an award.

"In all of his works he speaks only to the truth, and although he is a hard teacher and task master, he's one we ignore at our peril. To quote Gore Vidal, 'power is not a toy we give to someone for being good.' If we all don't begin to investigate where power and money really are in the here and now, we deserve what we get. Yes, Porter names names. The reader will come away from the book knowing just who killed Monroe. Porter rather brilliantly points to a number of motives but leaves it to the reader to surmise exactly what happened at the rainbow's end, just why Marilyn was killed. And, of course, why we should be careful of getting exactly what we want. It's a very long tumble from the top."

—ALAN PETRUCCELLI, *Examiner.com*

"This is the best book about Marilyn Monroe ever published."

—David Hartnell, *New Zealand's Resident Expert on Hollywood Lore, Recipient, in 2012, of New Zealand's Order of Merit (MNZM) for services to the entertainment industry as defined by Her Majesty, Queen Elizabeth II*

"I like to think that if Sinatra were still alive, he'd be taking a swing at both Darwin and Danforth for spilling so many juicy, juicy secrets! I love the Porter/Prince books. They are the biographies I dreamed about as a child."

—Paul Bellini, *FAB Magazine, Toronto*

"With this sizzling book, Blood Moon scores again."

—Richard LaBonté, *Books to Watch Out For*

"Porter's book concludes with an account of Marilyn's death that would certainly have gotten the author a pair of cement over-shoes or a bullet in the head, had he published it 30 years ago. Marilyn played with some very, very dangerous people and in the end, she paid a high price for it—but what a ride she had!"

WHAT IS BLOOD MOON PRODUCTIONS?

Established in 2004 by writers formerly associated with the European series of THE FROMMER GUIDES, Blood Moon Productions is an independent publishing enterprise dedicated to researching, salvaging, and preserving the oral histories of America's entertainment industry. As described by *The Huffington Post*, "Blood Moon, in case you don't know, is a small publishing house on Staten Island that cranks out Hollywood gossip books, about two or three a year, usually of five, six-, or 700-page length, chocked with stories and pictures about people who used to consume the imaginations of the American public, back when we actually had a public imagination. That is, when people were really interested in each other, rather than in Apple 'devices.' In other words, back when we had vices, not devices."

Blood Moon is one of the most prolific show-biz presses in the world, with a backlist of almost 50 titles, each an overview of seminal characters who affected the course of "The American Century." It's headquartered within **historic Magnolia House**, an award-winning AirBnb in Staten Island, the "sometimes forgotten" Outer Borough of New York City, within a ten-minute walk from the arrivals terminal of the ferryboat making frequent runs to Manhattan.
